MULTI–PLASTICS

Regulatory Compliance

Version: June 2024

Envirocycle® Clear PET Shrink Series Films
End Use Compliance Statements

Heavy Metals, CONEG and RoHS Compliance Statement

Multi-Plastics, Inc. hereby certifies that **Envirocycle Clear PET Shrink Series Films** comply with the requirements of the toxics in packaging laws. Specifically:

- We certify that the regulated metals of lead, mercury, cadmium, and hexavalent chromium were not intentionally added to **Envirocycle® Clear PET Shrink Series Films** during the manufacturing process.
- We further certify that the sum of the incidental concentration levels of lead, mercury, cadmium, hexavalent chromium present in **Envirocycle® Clear PET Shrink Series Films** does not exceed 100 ppm by weight (CONEG model limit). These substances are also restricted or forbidden by provisions of EU Directive 2011/65/EU (the RoHS Directive Two) and Directive 2015/863 (RoHS Directive Three) and EU Directive 94/62/EC on Packaging and Packaging Waste.

FDA Compliance Statement

Multi-Plastics, Inc. further guarantees that our **Envirocycle® Clear PET Shrink Series Films** that are hereafter shipped or delivered to a purchaser, as of the date of such shipment of delivery and subject to the conditions of use or other restrictions if any, are not adulterated or misbranded within the meaning of the Federal Food, Drug, and Cosmetic Act, as amended. **Envirocycle® Clear PET Shrink Series Films** also comply with the following Food and Drug Administration Regulations:

- 21 CFR 177.1630 (f) - Polyethylene phthalate polymers identified in this section may be safely used directly as, or as components of plastics that come into direct contact with food in accordance with the conditions of use restrictions outlined in this standard. **Envirocycle® Clear PET Shrink Series Films** should not be used for packaging or holding food during cooking.

California Proposition 65 Statement

Envirocycle® Clear PET Shrink Series Films also pose no risk of cancer or reproductive hazards under the California Safe Drinking and Toxic Enforcement Act of 1986 (Proposition 65 - currently listed chemicals) directive and its amendments and therefore do not require a warning statement to consumers.

Allergen Statement

This is also to confirm that **Envirocycle® Clear PET Shrink Series Films** do not contain any components based on/or derived from any known or potential allergen such as, but not limited to:

1. Peanuts
2. Tree nuts
3. Eggs or egg derivatives
4. Dairy or dairy derivatives
5. Wheat or wheat products
6. Soy or soy derivatives
7. Gluten from rye, oats and barley
8. FD&C/synthetic colors and dyes
9. Sulfites
10. Sesame/poppy/caraway seeds
11. Shellfish/fish
12. Crustacea
13. Corn or corn derivatives
14. Cottonseed products
15. Monosodium glutamate
16. Mustard
17. Celery products
18. Natural rubber latex
19. Genetically Modified Organisms (GMO's) and/or materials derived thereof.

Toxics Statement

Multi-Plastics, Inc. certifies that **Envirocycle® Clear PET Shrink Series Films** do not contain any of the following chemicals: BPA, BPB, BPF, BPS, PVC, chlorinated phenols, phthalates (DEP, DEHP, BBP, DINP, DBP, DnHP, DNOP, DIDP, DIBP, DPHP,DIUP,DTDP,DCHP), (also, see Table One attached), poly-chlorinated biphenyls (PCB), poly-brominated biphenyls (PBB) or poly-brominated biphenyl ethers (PBDE), polychlorinated triphenyls (PCT), decabromodiphenyls (DBDPO), polychlorinated dibenzoo-p-dioxins (PCDD), polychlorinated dibenzofurans (PCDF), polycyclic aromatic

hydrocarbons (PAH), glyoxal, naphthalene (and/or naphthalene compounds), melamine, formaldehyde, diethanolamine (DEA), BNST, triethanolamine, benzophenone and 4-MBP, 2-ITX, anthraquinone, nonylphenol, nonylphenol ethoxylates, NPP, Tris (2,3-dibromopropyl) phosphate (TDBP), asbestos, octylphenolethoxylate-dimethylfumurate (DMF), fluorinated telomeric materials, vPvB, perfluorocarbon resins (PFC's), PFOA, PFOS, PFSA, PFCA, Dioxins and 1,4 dioxane, benzene, perchlorate, trichlorobenzene, tetrachloroethylene, octamethyl-cyclotetrasiloxane (D4), phenol, sulfur compounds, BHA, BHT, organotins (DBT and DOT), TBHQ, PVDC, parabens, styrene, polystyrene, PLA, PHA, mineral oil, nano-particle materials, optical brighteners, azo dyes, biocides, pesticides, fungicides, fumigants, residual solvents, radioactive substances, or any animal by-products.

Non-Use of Halogen Substances and Reactive Oxidizing Agents

This is to certify that **Envirocycle® Clear PET Shrink Series Films** meet all current standards for toxic materials and can be considered 100% Halogen Free including the absence of compounds of bromine and chlorine.

Antimony Trioxide (Sb_2O_3) polymerization catalyst (CAS# 1309-64-4) is employed in the preparation of polymers used in all **Envirocycle® Clear PET Shrink Series Films** and it can subsequently be detected at trace levels. However, no antimony compounds are detected in standardized migration testing by the supply chain manufacturers. Therefore, the **Envirocycle® Clear PET Shrink Series Films** do not require a warning statement to consumers.

REACH Regulation (EC) No 1907/2006 Compliance Statement

Manufacturers of all **Envirocycle® Clear PET Shrink Series Films** raw materials have provided written statements to us that their products which are ultimately exported to the EU by our customers are in full compliance with REACH. However, **Envirocycle® Clear PET Shrink Series Films** products are *articles* in terms of REACH definitions and are therefore exempt from registration. These products do not contain substances which are released under normal or reasonably foreseeable conditions of use (REACH Article 7-1). EU-importers of Multi-Plastics' products are therefore relieved from any registration or notification obligations. These statements also include all Substances of Very High Concern (SVHC) as is defined in Article 57 of REACH and Annex XVII list.

However, please be advised that we do not specifically test **Envirocycle® Clear PET Shrink Series Films** for each of those substances as they are not intentionally added to them and are not expected to be present at any levels above the threshold limits identified in REACH based on our detailed knowledge of all of the raw materials used in **Envirocycle® Clear PET Shrink Series Films** products. This manufacturer's guarantee is valid for all SVHC's listed up to June 2024 including Annex 17.

Kosher

Envirocycle® Clear PET Shrink Series Films are composed of synthetic and chemically inert materials of a high degree of purity and so they will not adversely affect the Kosher status of the food packaging products you are creating. Please contact your local Kosher certifying agency such as the Orthodox Union for assistance in this matter.

Conflict Minerals Statement

Multi-Plastics, Inc. fully supports the SEC and the recent Dodd-Frank Reform Act as a method to combat human rights abuses by the Democratic Republic of the Congo (DRC), and for making companies more accountable for buying suspect raw materials that directly aid corrupt militias. We are also pleased to report that no "conflict minerals" (tantalum, tin, gold, and tungsten) are used in the manufacture of **Envirocycle® Clear PET Shrink Series Films**.

Clean Air Act Statement

Envirocycle® Clear PET Shrink Series Films do not contain and are not manufactured with ozone-depleting chemicals (Class I or Class II) under the Clean Air Act Amendments of 1990 nor require a warning statement related to such chemicals. **Envirocycle® Clear PET Shrink Series Films** are produced in conformity with Regulation (EC) No. 2037/2000 of the European Parliament on substances that deplete the ozone layer and the Montreal Protocol ODS.

MULTI–PLASTICS

Regulatory Compliance

Version: June 2024

Canadian EPA Batches 1-12 and Canada Cosmetic Hot List Statement

None of the ingredients or sub-ingredients in **Envirocycle® Clear PET Shrink Series Films** are included in Environment Canada's June 2014 list of substances proposed for delisting from the CEPA Domestic Substances List (DSL) nor in the Health Canada Cosmetic Hot List.

Toy Safety Directive Statement

Envirocycle® Clear PET Shrink Series Films are not intentionally formulated with any substances listed in the EU Directive 2009/48/EC (Toy Safety Directive), Annex II, Section III Chemical Properties. These restricted substances include but are not limited to Arsenic, Antimony, Barium, Cadmium, Chromium, Mercury, Lead and Selenium. See halogen statement for details on the use of antimony trioxide catalysts in the production of polyester films.

Cosmetic Products Safety Statement – EU Regulation No 1223/2009

Envirocycle® Clear PET Shrink Series Films are compliant with the European product safety requirements of the New Cosmetic Directive 1223/2009 and specifically with Annex II and Annex III List of Substances Prohibited in Cosmetic Products. (EU Directive 1223/2009 replaces all provisions of EU Directive 76/78/EEC as of July 2013)

European Biocidals Directive 528/2012 Statement (superseding EC 98/8/EC)

Envirocycle® Clear PET Shrink Series Films are compliant with EU Biocidals Directive 528/2012 and therefore do not contain subject chemicals of concern identified as active substances in that new directive.

The information provided is believed to be reliable but it is meant only as a guide and is not intended to show compliance with any specific end use. It is the users responsibility to assess all application requirements and then to assure full compliance with all laws, regulations, and standards. This compliance certification for Multi-Plastics, Inc. **Envirocycle® Clear PET Shrink Series Films** shall remain in full force and effect for all shipments unless and until it is revoked in writing.
