MULTI–PLASTICS

# Regulatory Compliance

Version: June 2026

## RPET/APET Blends Sheet & Film
## Product Safety & Regulatory Compliance Statements
### Poly(ethylene terephthalate) CAS#: 25038-59-9

**Heavy Metals, CONEG and RoHS Compliance Statements**

Multi-Plastics hereby certifies that **RPET/APET Blends Sheet and Film** has been tested for heavy metals and complies with the requirements of the toxics in packaging laws. Specifically:

- We certify that the regulated metals of lead, mercury, cadmium, and hexavalent chromium were not intentionally added to **RPET/APET Blends Sheet and Film** during the manufacturing process.
- We further certify that the sum of the incidental concentration levels of lead, mercury, cadmium, hexavalent chromium present in **RPET/APET Blends Sheet and Film** does not exceed 100 ppm by weight (CONEG model limit). These substances are also restricted or forbidden by provisions of EU Directive 2017/2102 (the RoHS Directive Two – amended), EU Directive 2015/863 (the RoHS Directive Three), and EU Directive 94/62/EC on Packaging and Packaging Waste.

**FDA Compliance Statement**

Multi-Plastics, Inc. further guarantees that **RPET/APET Blends Sheet and Film** that are hereafter shipped or delivered to a purchaser, as of the date of such shipment of delivery and subject to the conditions of use or other restrictions if any, are not adulterated or misbranded within the meaning of the Federal Food, Drug, and Cosmetic Act, as amended. **RPET/APET Blends Sheet and Film** also comply with one or more of the following Food and Drug Administration Regulations:

- 21 CFR 177.1630 – *Polyethylene Phthalate Polymers* – Polymers listed as approved ingredients can be safely used as components in plastics that are intended to come into contact with all food types under the specific conditions of use listed in the regulation including high alcohol content substances. See 21 CFR 176.170 - Table 2 - Conditions of Use C through H.
- 21 CFR 178.3297 – *Colorants for Polymers* – The substances listed in this section may be safely used as colorants in the manufacture of articles that are intended to come into contact with food subject to the provisions listed in the regulation.
- 21 CFR 175.300 – *Resinous and polymeric coatings (release agent)* – All the substances used as components of the coatings listed in this regulation may be safely used as food contact surfaces for articles that are intended to come into direct contact with food.

**California Proposition 65 Statement**

**RPET/APET Blends Sheet and Film** also pose no risk of cancer or reproductive hazards under the California Safe Drinking and Toxic Enforcement Act of 1986 (Proposition 65 - currently listed chemicals) directive and its amendments and therefore do not require a warning statement to consumers. Antimony Trioxide (Sb2O3) polymerization catalyst (CAS# 1309-64-4) is employed in the preparation of polymers used in all **RPET/APET Blends Sheet and Film** products and it can subsequently be detected at trace levels. However, no antimony compounds are detected in standardized migration testing by the supply chain manufacturers. Therefore, the **RPET/APET Blends Sheet and Film** products do not require a warning statement to consumers.

**Toxics Statement**

Multi-Plastics, Inc. certifies that **RPET/APET Blends Sheet and Film** do not contain any of the following chemicals:

ABS, MABS, SAN, BPA, BPS, PVC, chlorinated phenols, BADGE, NOGE, BFDGE, phthalates and ortho-phthalates (See Table 1: DEP, DEHP, BBP, DINP, DBP, DIBP, DnHP, DNOP, DIDP, DPHP,DIUP, DTDP), poly-chlorinated biphenyls (PCB), poly-brominated biphenyls (PBB) or poly-brominated biphenyl ethers (PBDE), polychlorinated triphenyls (PCT), decabromodiphenyls (DBDPO), polychlorinated dibenzoo-p-dioxins (PCDD), polychlorinated dibenzofurans (PCDF), polycyclic aromatic hydrocarbons (PAH), glyoxal, naphthalene (and/or naphthalene compounds), melamine, formaldehyde, diethanolamine (DEA), BNST, triethanolamine, benzophenone and 4-MBP, 2-ITX, anthraquinone, nonylphenol, nonylphenol ethoxylates, NPP, Tris (2,3-dibromopropyl) phosphate (TDBP), asbestos, octylphenolethoxylatedimethylfumurate (DMF), fluorinated telomeric materials, vPvB, perfluorocarbon resins (PFC's), PFAS, PFOA, PFOS, Dioxins and 1,4 dioxane, benzene, trichlorobenzene, trichloroethylene,

tetrachloroethylene, octamethyl-cyclotetrasiloxane (D4), perchlorate, phenol, sulfur compounds, BHA, BHT, organotins (DBT and DOT), TBHQ, PVDC, parabens, styrene, EPS, mineral oil, nano-particle materials, optical brighteners, azo dyes, biocides, fungicides, pesticides, radioactive substances, or any animal by-products.

**Allergen Statement**

This is also to confirm that **RPET/APET Blends Sheet and Film** do not contain any components based on/or derived from any known or potential allergen such as, but not limited to:

1. Peanuts
2. Tree nuts
3. Eggs or egg derivatives
4. Dairy or dairy derivatives
5. Wheat or wheat products
6. Soy or soy derivatives
7. Gluten from rye, oats and barley
8. FD&C/synthetic colors and dyes
9. Sulfites
10. Sesame/poppy/caraway seeds
11. Shellfish/fish
12. Crustacea
13. Corn or corn derivatives
14. Cottonseed products
15. Monosodium glutamate
16. Mustard
17. Celery products
18. Natural rubber latex
19. Genetically Modified Organisms (GMO's) and/or materials derived thereof.

**Non-Use of Halogen Substances and Reactive Oxidizing Agents**

This is to certify that **RPET/APET Blends Sheet and Film** meet all current standards for toxic materials and can be considered 100% Halogen Free including the absence of compounds of bromine and chlorine.

**Kosher Statement**

**RPET/APET Blends Sheet and Film** are composed of synthetic and chemically inert materials of a high degree of purity and so they will not adversely affect the Kosher status of the food packaging products you are creating. Please contact your local Kosher certifying agency such as the Orthodox Union for assistance in this matter.

**REACH Regulation (EC) No 1907/2006 Compliance Statement**

Manufacturers of **RPET/APET Blends Sheet and Film** have provided statements to us that their film products exported to the EU by our customers are in full compliance with REACH. **RPET/APET Blends Sheet and Film** are articles in terms of REACH definitions and are therefore exempt from registration. These products do not contain substances which are released under normal or reasonably foreseeable conditions of use (REACH Article 7-1). EU-importers of Multi-Plastics Extrusions products are therefore relieved from any registration or notification obligations.

These statements also include all Substances of Very High Concern (SVHC) as is defined in Article 57 of REACH. However, please be advised that we do not specifically test **RPET/APET Blends Sheet and Film** for each of those substances as they are not intentionally added to them and are not expected to be present at any levels above the threshold limits identified in REACH based on our detailed knowledge of all of the raw materials used in our film and sheet products. This guarantee is valid for all SVHC's listed up to June 2026 including Annex XVII.

**Conflict Minerals Statement**

Multi-Plastics, Inc. fully supports the SEC and the recent Dodd-Frank Reform Act as a method to combat human rights abuses by the Democratic Republic of the Congo (DRC), and for making companies more accountable for buying suspect raw materials that directly aid corrupt militias. We are also pleased to report that no "conflict minerals" (tantalum, tin, gold, and tungsten) are used in the manufacture of **RPET/APET Blends Sheet and Film**.

**Consumer Product Safety Improvement Act (CPSIA) Statement**

**RPET/APET Blends Sheet and Film** comply fully with all relevant CPSIA safety rules and government guidelines.

**Clean Air Act and Stockholm Convention Statement**

**RPET/APET Blends Sheet and Film** do not contain and are not manufactured with ozone-depleting chemicals (Class I or Class II) under the Clean Air Act Amendments of 1990 nor require a warning statement related to such chemicals.
**RPET/APET Blends Sheet and Film** are produced in conformity with Regulation (EC) No. 2037/2000 of the European

Parliament on substances that deplete the ozone layer and the Montreal Protocol ODS. **RPET/APET Blends Sheet and Film** also do not contain chemicals listed as persistent organic pollutants (POP's) by the Stockholm Convention.

**Canadian EPA Batches 1-12**

None of the ingredients or sub-ingredients in **RPET/APET Blends Sheet and Film** are included in Environment Canada's June 2014 list of substances proposed for delisting from the CEPA Domestic Substances List (DSL).

**Toy Safety Directive Statement**

**RPET/APET Blends Sheet and Film** are not intentionally formulated with any substances listed in ASTM F963-11 and the EU Directive 2009/48/EC (Toy Safety Directive), Annex II, Section III Chemical Properties. These restricted substances include but are not limited to Arsenic, Antimony, Barium, Cadmium, Chromium, Mercury, Lead, Selenium and phthalates. See also Toxics and Heavy Metals Statements.

The information provided is believed to be reliable but it is meant only as a guide and is not intended to show compliance with any specific end use. It is the users responsibility to assess all application requirements and then to assure full compliance with all laws, regulations, and standards. This compliance certification for Multi-Plastics, Inc. **RPET/APET Blends Sheet and Film** shall remain in full force and effect for all shipments unless and until it is revoked in writing.

**MULTI-PLASTICS, INC.**
